Document Camera TEMPEST Level A and RÖS U1

Description

Fibersystems Document Camera U1/LA+ is based on the Optoma DC556 with safety-enhancing features and modifications to comply with TEMPEST Level A and RÖS U1. The included remote control is used to operate the document camera.

The document camera can be connected to a TEMPEST-rated presentation screen or video conferencing system to view documents and images securely. Connection is made through the fiber optic HDMI output. The document camera can be used for formats up to A3 where the base plate of the tripod serves as a document surface.

If the document camera is intended to be used with, for example, a monitor or computer with regular HDMI, you need Fibersystems HDMI-HDMI FO converter, see picture below and under accessories.
